

Lighting the way to Greener Retail

We know light.

It's the secret ingredient in successful merchandising. Brighter displays that are alive with vibrant colour – that's the difference Vantium digital (LED) illumination will make.

We also know green.

That's why we're lighting the way to greener retail with pioneering digital (LED) lighting technology that instantly slashes energy consumption, supported by energy management expertise that can keep these costs at a minimum.

But most of all, we know retail.

Global food retail – it's our world, it's our passion. Uniform brightness through the store. Unrivalled choice of lighting options. A product for every type of refrigerated display application. New innovations to meet new trends. Nualight is the global leader in refrigerated display illumination.

Vantium Product Series

REFRIGERATED DISPLAY ILLUMINATION

OEM OR RETROFIT

PORTO [doors]

LARGO [shelves]

CENTRO [islands]

FRESCO [counters]

DUO [combi]

ALTO [rooms]

UNO [private label]

Vantium

ONE NAME FOR ALL REFRIGERATED DISPLAY ILLUMINATION APPLICATIONS

There is a Vantium product for every refrigerated display application, ensuring uniformity of light throughout the store even for bespoke displays. This enables the retailer to take a phased approach to the introduction of digital lighting.

By continuously monitoring trends in global retail and responding rapidly with new fast-track products, the Vantium product series is continuously evolving to deliver the most innovative digital lighting solutions for refrigerated displays.

Vantium Porto	DOORS	Any freezer or chiller door configuration.	Full Door / Half Door Options.
Vantium Largo	SHELVES	Any multi-deck case configuration.	Frontshelf / Underself / Canopy Options.
Vantium Centro	ISLANDS	Any deep well and coffin case configuration.	Handrail / Integrated Glass Cover Options.
Vantium Fresco	COUNTERS	Any meat serveover, salad bar or deli counter.	Canopy / Perimeter Options.
Vantium Duo	COMBI	Any type of door / island combination case.	Any combination of the Vantium product series.

UNRIVALLED FLEXIBILITY OF PRODUCT DESIGN

Vantium delivers an unrivalled choice in terms of application, scale, style, illumination and colour temperature for each of its products. Enhanced merchandising opportunities can also be achieved via multiple control and dimming options. Each retailer can choose its own configuration from the following range of options.

Colour temp	Length	Brightness	Case type	Extrusion colour	Power supply	Cable	Bracket	Retro-fit or New Cases
-------------	--------	------------	-----------	------------------	--------------	-------	---------	------------------------

LOW-ENERGY ILLUMINATION FOR HIGH-POWERED DISPLAYS

Vantium pushes the potential of digital (LED) lighting technology further than ever before for food retail. This pioneering range of digital lighting has been designed specifically for refrigerated displays, delivering exceptional energy efficiency and merchandising effectiveness.

- Minimum 60% energy savings.*
- Brighter, more evenly lit displays.
- 5 year warranty.
- Maximum 2 year payback.

* When our energy management expertise is used to optimise Vantium control settings, further energy savings can often be achieved.
